ABOUT OUR COMPANY

Triton Arabia trading company is established and grown significantly in subsequent years being one of the most successful companies offering trading with the highest level of quality and safety. Triton Arabia has always accepted challenging opportunities and this is an indication of our long-term confidence in our expertise and quality of Trading services We deliver, add value and give our clients the chance to focus on their core business

› Company Vision

We believe our first responsibility is our clients and customers who use our products and services and aim is to become the most preferred product and service provider for the Oil and Gas Industry, Petrochemical, Constructions across the kingdom of Saudi Arabia

› Company Mission

Our mission is to reach our customers' expectations at all levels with integrity and ensure that we abide by the quality and ethic policies. We focus on continuous improvement by updating technology and staff development and assure the well-being of our employees and the environment in all that we do.

Quality Policy

We at Triton Arabia Trading are committed to satisfying our customers by Supplying quality products, complying to customer, statutory & regulatory requirements, with continual improvement of our quality management system, and providing on time delivery and at a competitive price". "We shall achieve this through continual improvement in all our activities by total employee involvement"

HSE Policy

We at Triton Arabia Trading are committed to achieve our stated goals

- Implement and maintain a comprehensive HSE Management system to mitigate risk to human capital, equipment and assets.
- Comply with all applicable laws / regulations to implement HSE standards in all areas and activities of organization.
- Provide safe and healthy workplaces for our employees, contractors, visitors and other service providers.
- Establish challenging targets and measures and report progress to ensure continuous improvement in HSE performance.
- Minimize impact on environment by following best environmentally friendly practices.
- Regularly. provide HSE related information and training to associates to enable them to effectively discharge their responsibilities and contribute towards compliance with the group's HSE policy.

A Quick Look at the **Triton Arabia Trading**

Since from the Success of Contracting Business we have started Trading Division and today we are one leading material supplier of Tools, Hardware, Safety PPE and Electrical materials, Pipe fittings to Oil & Gas, Power plants, Petro chemical plants and its major clients. The Key to our success has been the selection of our merchandise from reputed international manufacturers, with the highest degree of quality and trust with their products and core values which includes transparency and ensure safety of the products supplied. We measure our performance and determine improvements in service reliability and quality.

Industrial Gaskets

HNGC has been supplying and delivering sturdy products for the Oil and Gas Industry across Saudi Arabia. We totally understand the challenges and critical demands of the Oil and Gas Industry. We offer a wide selection of products, including Ring Type Joint Gaskets, Spiral Wound Gaskets, Insulation Kit Gaskets, Metal Jacketed Gaskets, Rubber gaskets and much more as per international standards and customer requirements.

Ring Gasket - A comprehensive Guide

Ring Gasket or Ring Type Joint Gasket (RTJ gasket), is a type of gasket used in high pressure, temperature, and corrosive environments. RTJ gasket products are used in oil & gas pipelines, chemical processing plants, power generation plants, refineries, and other industrial applications that require a high level of reliability and safety. Ring gaskets come in various sizes, shapes, and materials to suit different applications.

Ring gaskets are essential in various industries and crucial in creating reliable seals for pipelines, flanges, and other connections. Used extensively to prevent fluid and gas leaks, ring gaskets find applications in industries from oil and gas to chemical processing. Delve into this thorough guide covering the functions, types, materials, standards, and applications of ring gaskets, and discover best practices for installation and maintenance.

Functions of Ring Joint Gasket

The primary function of a ring joint gasket is to provide a tight, secure, and leak-proof seal in applications where conventional gaskets may fail to withstand extreme conditions. The RTJ gasket achieves this by forming a metal-to-metal seal between the flange faces under high compressive loads. This design ensures stability and resilience, making ring joint gaskets suitable for demanding environments.

Where are Ring Joint Gaskets Used?

Ring joint gaskets find application in industries where sealing integrity is crucial, especially in high-pressure and high-temperature environments. Several typical applications include:

- **Oil and Gas Industry** Employed in pipelines, wellheads, and various equipment in oil and gas exploration and production.
- **Chemical Processing** Used in chemical plants to seal flanges in corrosive chemical processes.
- **Power Generation** - Applied in power plants to seal joints in boilers, turbines, and heat exchangers.
- **Petrochemical Industry** Utilized in refineries and petrochemical facilities for sealing connections in critical applications.

Below are the Gasket type which we are supplying to our customer

Oval Type RTJ Gasket

Octagonal

BX Type

Rubber Moulded

RTJ kammprofile

CG Gasket

GI Gasket

Type E (Full Face Type Gasket)

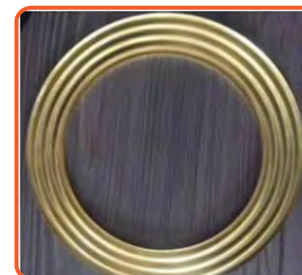

Type F (Raised Face Type Gasket)

Rubber Gasket

Single Jacketed Gasket

Corrugated Gasket

Solid Gasket

Metal Seal R

Oval Type Gasket

A spiral wound gasket is a remarkable mechanical seal comprising a blend of metallic and filler materials. This innovative design includes a metal winding strip, often made from robust stainless steel or other specialized alloys, and a filler material, typically graphite or PTFE. Spiral wound gaskets play a crucial role in sealing applications across various industries, providing a reliable and effective solution for preventing leaks in pipelines and equipment. In this complete guide, we will delve into the intricacies of spiral wound gaskets, exploring their definition, properties, manufacturing standards, components, types, fillers, dimensions, and installation processes.

Flange Insulation Gaskets Insulation gaskets are incredibly versatile, making them perfect for various applications, including pipeline systems, flange connections, heat exchangers, pressure vessels, pumps, and valves. We've engineered our insulation gaskets to meet the unique sealing requirements of different industries, ensuring your peace of mind.

Rubber gasket Our rubber gaskets are meticulously designed and manufactured using top-grade rubber materials. These gaskets are essential components for creating a secure and leak-free seal in various applications. Whether you need gaskets for plumbing systems, automotive parts, industrial machinery, or other sealing applications, we have a wide selection to meet your specific requirements. We take pride in being a trusted rubber gasket manufacturer and supplier, providing reliable and effective products that ensure optimal performance and sealing efficiency.

Metal Jacketed Gasket Metal Jacketed Gaskets are a specialized sealing solution used in industries where standard gaskets may not provide the required performance. These gaskets are constructed by encapsulating a soft filler within a stainless-steel jacket. The metal jacket protects the filler and resists pressure, temperature, and corrosion, allowing the gasket to maintain a reliable seal under extreme conditions.

We supply hydraulic power and motion control, fluid conveyance, and filtration products for a variety of mobile and industrial applications, including construction, mining, material handling, manufacturer, oil and gas, agriculture. Our pumps, motors, transmissions, cylinders, electrohydraulic valves, electronic controls, hoses, fittings and connectors are designed to deliver reliability, drive productivity and provide consistent performance - empowering our customers to engineer solutions that enable better results

Hydraulic Fittings

- Din
- Bulkhead
- Hydraulic Line
- Fittings and Adaptors
- Compression
- Y Fittings
- Metric
- NPT
- JIC
- Tube/Hose/Elbow Fittings
- Brass and Stainless steel
- Reusable
- Crimp

Hydraulic Filters

From filters and elements to complete systems and contamination monitoring, Hydro Solution has certified filtration solutions that help improve machine reliability and increase the service life of the system.

Hydraulic Seals

Wiper Seal

Elevate your machinery's performance with our precision-engineered wiper seals, ensuring optimal protection against contaminants and smooth operation.

Rod Seal

Trust in our robust rod seals, meticulously crafted for superior sealing efficiency and longevity, guaranteeing reliable performance in hydraulic

Piston Seal

Enhance your equipment's functionality with our high-quality piston seals, engineered to withstand high pressures and provide leak-free operation in pneumatic applications.

Symmetric

Experience seamless operation with our symmetric seals, designed for balanced performance and precise sealing in hydraulic and pneumatic systems.

Guide Rings

Ensure smooth motion and reduced friction with our guide rings, crafted to exacting standards for precise alignment and support in machinery.

O-rings

Count on our O-rings for dependable sealing solutions, offering resistance to a wide range of fluids and temperatures in various industrial applications.

Rotary Seal

Optimize rotary motion systems with our rotary seals, engineered to provide effective sealing and lubrication retention for enhanced equipment longevity.

Mining Seal

Conquer harsh mining conditions with our specialized mining seals, engineered to withstand extreme pressures and abrasive environments, ensuring uninterrupted operations.

Mechanical Fittings

Butt Weld Fittings

Type : Seamless & Welded

Standards: ASME, ANSI B16.9/B16.28/MSS SP75

SIZE RANGE: 1/2" to 4"

MATERIALS:

- A234-WPB&WP5,WP9,WP11,WP22
- A420-WPL3/WPL6
- A403-WP304/L;WP316/L
- A860-WPHY 42-46/52-60/65-70

Flanges

Type : Weld Neck, Slip On, Socket Weld, Lap Joint, Threaded, Blind,

Reducing and Spectacle Plate

Standards: ASME, ANSI B16.5, MSS

SP-44B16.47A,

API605 B16.47B, DIN,

SIZE RANGE: 1/2" to 4"

MATERIALS: ASTM A 105, A182 Gr.F304/L, F316/L,

A350 LF2, A694-F42 to F70

Forged Steel Fittings

SIZE RANGE: 1/2" to 4"

Standards: ASME,ANSI B16.11

MATERIALS: ASTM

A105,A182Gr.F304/L,F316/L,A350

LF2,A694-F42 to F70

Valves

Type : Gate valve, Globe Valve, Check Valve in Forged & Cast Steel

Standards:ASME,B16.34,B16.10,API SPECS

SIZE RANGE: 1/2" to 4"

MATERIALS:ASTM,A105,A182,A216WCB

/WCC,A217, A315, A352, A351

CF8/CF8M

Other Fittings

- Gaskets, insulation flange kits, drip rings
- Malleable iron fittings
- BSPT/NPT threads
- Pvc, Upvc, pipes and fittings

Below are the brands for Mechanical fittings which we are supplying to our customer

Tools & Hardware

We Supply Tools & hardware required for residential and industrial and construction projects which is listed below

Hand tools such as pliers, wrenches, sockets, spanners, torque wrenches, screw drivers, carpentry tools, shovels, hammers, lifting and pulling tools, measuring tapes, plumbing tools etc.

Power Tools such as drill, grinding, air blowers, circular saw, hammering tools, screw gun, heat gun, impact wrench, jig saw polishing and pneumatic tools etc.

Abrasives such as cutting & grinding disc, stone, flap wheel, cup brush, wire brush, twisted wheel, ceramic cup, rotary burrs, diamond cutting disc & drill bits etc.

Lifting tools such as chain puller, nylon and polyester belts, slings, steel and galvanized chains, de shackles, livers, trolleys, bottle jacks, hooks, hand pullers and pallets etc.

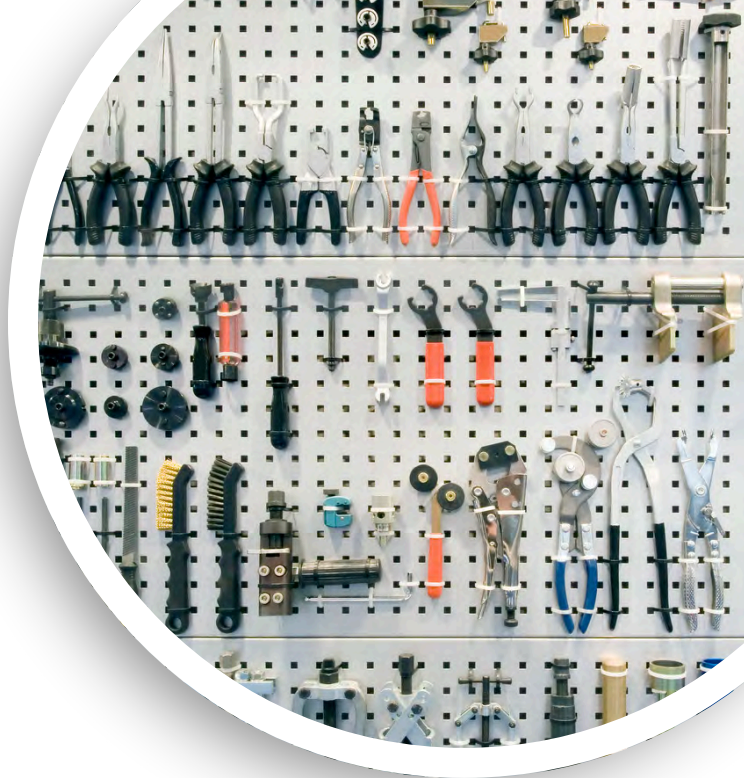

Welding Consumables such as electrodes, oven, holders, welding earth clamp, welding cables, filler wire, tig troche, apron, regulators, face shield, welding helmet, welding gloves, leggings, welding glasses

Lubricants and forms such as threading oil, cutting oil, WD40, CRC spray, grease, spray paints, and adhesives, Hydraulic Oil. High pressure Grease, Lock tite adhesive, silicon etc.

Ladders such as aluminum and beam ladder and Fiber ladder, the ladder type we have straight, A type, extendable, multipurpose etc.

Cleaning Items such as cotton rugs, gloves, cleaning mops, brush, Trash bin, hand brooms and wipers, cleaning liquids, detergent powder, hand wash, trash bags, Air fresheners, Floor mate, Rubber mate, Tissues, Bleaches, etc.

Tapes such as warning tape, electric tape, clear tape, duct tape, Teflon tape, sealing tape, wrapping tape & gypsum tape etc.

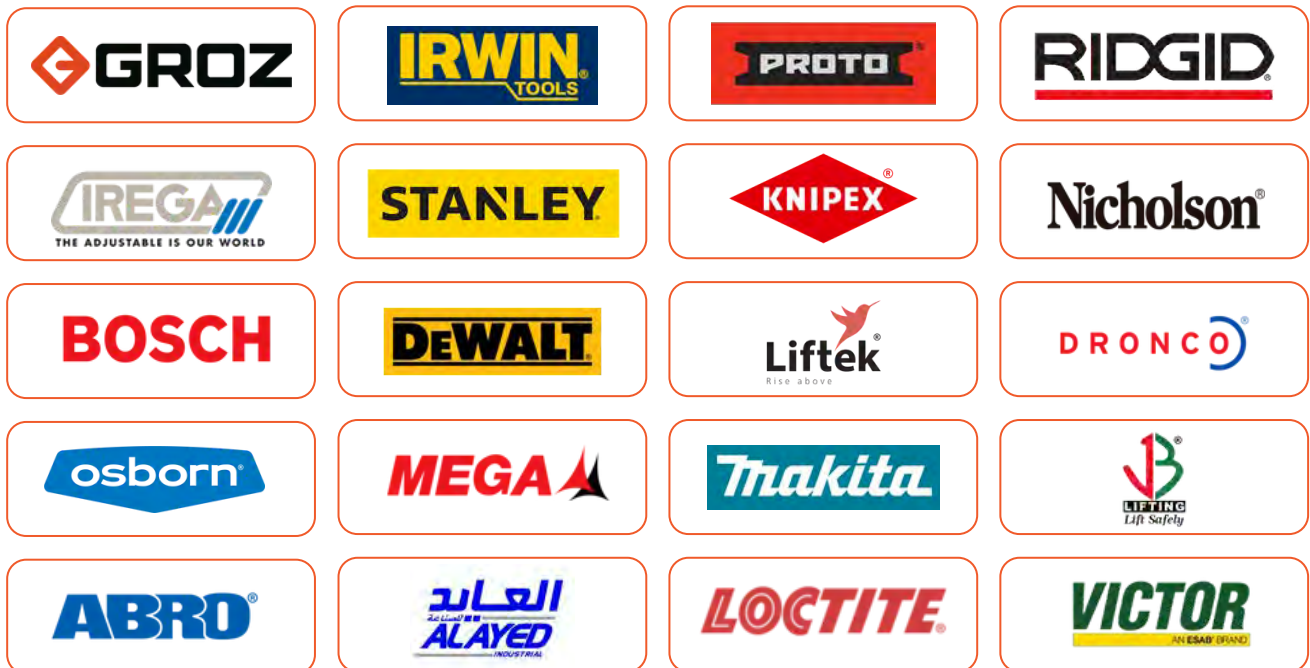

Fasteners and fixtures, such as nails, screws, hinges, door lock, pad lock, nuts and bolts, automatic door closure, door stoppers etc.

Hoses such as rubber hose, clear hose, reinforced hose, high pressure hoses, hydraulic hoses with assembly etc.

Painting Consumables such as brush, rollers, painting guns, thinner, paint remover & varnish etc.

Miscellaneous items such as polyethylene sheets, bubble sheets, form sponge, safety green and orange mesh, tie wires steel and plastic coated, tarpaulin, nylon rope, synthetic rope, cotton rope, manila rope, polypropylene ropes etc.

Below are the brands for tools and hardware which we are supplying to our customer

Safety PPE

Triton Arabia Trading is associated with renowned safety item manufacturers and major suppliers from across the globe. Triton Arabia is a leading Industrial Equipment supplier of Personal Protective Equipment, Traffic safety, fire alarm and firefighting equipment in the kingdom of Saudi Arabia. We are the stockiest of industrial safety work wear, industrial safety shoes, Industrial safety helmet etc.in the region. it's our mission to provide world class safety solution to our customers as per their customized needs..

We are an iso 9001:2015 certified safety product supply company. And unique in safety items of wide range of quality protective products, personalized services and competitiveness. We have built ourselves a reputation for a preferred service provider in our area of activities due to the high-quality protective products. Delivery commitments and efficient inventory management with an excellent after sales safety equipment service.

Head protection

Safety Helmets with different color like white, yellow, blue, red and green, Bump Caps.

Respirators

Full and half face mask, Cartridges & filters.

Eye Protection

Dark and clear glass, Safety goggles, eye wash liquids, face shields Hand Protection-Rubber gloves, leather gloves, welding gloves, sleeves, chemical gloves, anti-cut gloves, anti-oil gloves & medical gloves, Examination gloves.

Hearing Protection – Ear plugs and ear muffs.

Foot Protection -Safety shoes, welding long boots.

Uniforms -Safety vest, anti-flame coveralls, cotton & Polyester coverall, safety reflected jackets

Fall Protection- Full body harness, lanyard, safety belts, hooks and connectors,

Traffic Safety – Road barrier, traffic cone, wheel stopper, warning tapes, traffic safety vest, spring cones, expandable safety barriers, plastic standard speed barrier, traffic sticks, PVC barricade chains, reflective eye cats, safety convex mirrors, rubber wall and column protectors, car wheel clamps, rubber corner guard, solar and battery blinking lamps etc.

First Aid Box and bags with Different sizes First aid kits, and accessories

Welding Safety- Leather apron, fire blanket, curtains, and leather jackets.

Electrical Safety

Lotto pad locks, electrical lockouts, Lotto hasps, Lotto tags, Lotto kits, Lotto Station and group lock boxes, rescue stick and hooks arc flash clothing and kits etc.

Oil and chemical Spill Kits

Oil Spill kits, chemical spill kits, stating from 25, 50, 80, 120, 200, 400, and 600 ltr with drum, Oils and chemical pads, pillows, brooms and brush, Oil & Chemical Absorbent Granules etc.

Storage cabinets:

flammable cabinets starting from 30, 45, 60 and 90 gallons with manual and automatic door option available

Spill pallets comes with 2 drum and 4 drum capacity

Oil waste can come with 10, 15, 20 gallon size capacity

Safety shower and Eye wash Station

such portable eyewash and safety shower, floor mounted eyewash, wall mounted eyewash, enclosed safety shower cabinets, combination safety shower and eyewash station and tank shower system.

Portable gas detectors

such as single and multi-gas detectors Other safety items such as wind sock and frame, safety sign boards with different sizes, reflective sign and stickers etc.

Electrical Materials

Cables and Wires

- Power cables LV cables including PVC and XLPE insulation, armed cables,
- single and multi-core construction
- Control cable
- Grounding cable
- Wire and cable accessories
- Cable lugs and connectors
- Cable termination kits
- Cable Glands
- Wire Spring Nuts

Conduits and fittings

- Rigid Conduit and fittings
- EMT Conduits and fittings
- Liquid tight Conduits and fittings
- PVC Coated Conduit and Fittings
- Conduits Outlet Bodies
- Unistrat Channels

Industrial Control & Automation

- Cable joints and breakers
- Industrial plugs & power sockets
- Junction Box and pull Boxes
- Terminal Boxes and industrial connectors
- Safety disconnect switches
- Panel board

Cable Management System

- Perforated cable trays and fittings
- Ladder cable trays and fittings
- Covers and Other Accessories
- Cable Ties - Nylon & Stainless Steel

Earthing & Lightning

- Conductor & Earth Points
- Earth rods and clamps
- Fixing bonds and clamps
- Electrical testing tools
- Earthing Bars with Bonds & Clamps

Below are the brands for Electrical Materials which we are supplying to our customer

Tires and Lubricants

Our Tires Division combines the strength and resources of international market-leading companies with the innovation and customer dedication of a Saudi local company. We supply mainly commercial tires to oil & gas and construction sites, the brand which we supply to customer are Michelin, Bridgestone, Hankook, Apollo, Yokohama, Laufenn etc.

Below are size we usually keep stock all the time

- 11R22.5,
- 12.00R24
- 12.00R20
- 11.00R20
- 10.00R22.5
- 11R24.5
- 315/80R22.5
- 385/65 R22.5
- 325/95 R24
- 295/80R22.5
- 445/65R22.5
- 255/70R22.5

We also supply below lubricants and hydraulic to our oil & gas customers

- Moly coat high pressure grease
- Caltex Mutifak EP2
- SKF High pressure grease
- Mobile HD 32 hydraulic oil
- Caltex HD 68 Hydraulic oil
